

Lomita Railroad Museum Speakers Forum

*Join us at the Lomita Railroad Museum for unique and enjoyable evenings
designed to enlighten, entertain and inform!*

Now in its sixth year, the 2014 Lomita Railroad Museum Speaker Forum continues a tradition of offering fascinating presentations and lively discussion on the history and rich culture of the South Bay communities we serve.

Each program will begin with a reception and light refreshments in the Museum Patio at 6:30 pm, followed by the lecture in the Museum at 7:00 p.m.

We're looking forward to seeing you there!

January 16, 2014

Ground Water – The Treasure Beneath Our Feet

The history of the Western U.S. and Southern California is tied directly to ready access to water. Learn about where our water comes from and how it gets to our taps in the South Bay. Hear how the Water Replenishment District of Southern California is working to make our groundwater basin independent from expensive and increasingly less reliable imported water from the Sacramento Delta and Colorado River.

***Rob Katherman** is an Environmental Engineer and has served as Board Director of the Water Replenishment District of Southern California since his election in 2004. He is Council Deputy to Los Angeles Councilmember Curren Price assisting him with economic development and planning issues and has more than 30 years of experience in land use planning, environmental impact analysis and governmental impact analysis and governmental and community relations. Rob is also a proud grandfather.*

The Lomita Railroad Museum Speakers Series is offered free to the public through the generosity of the Lomita Railroad Museum Foundation.
RSVPs are appreciated. 310-326-6255 or 310-326-0140
